## PROFESSIONAL EXPERIENCE

### Senior WordPress Developer

**First Rite IT Services** | Kolkata, West Bengal | January 2025 – Present

- Built custom LMS platforms where students can enroll, take quizzes, view reports, and admins can manage roles and access.
- Developed Shopify stores with custom themes and easy-to-edit content sections for clients.
- Built web applications using CodeIgniter based on what each client needed for their business.

### Senior WordPress Developer

**Esolz Technologies Pvt. Ltd.** | Kolkata, Newtown, West Bengal | July 2023 – May 2025

- Built and maintained WordPress websites with custom post types, fields, shortcodes, WooCommerce, and REST APIs.
- Connected WordPress and CodeIgniter applications using secure APIs so data could sync automatically between them.
- Developed custom WooCommerce features using hooks to meet client requirements and enhance website functionality.
- Made websites load faster by compressing images, using caching, and minifying CSS and JS files.
- Fixed complex WordPress bugs and used Git to manage code changes while working with designers and developers.

### Web Developer

**Bariza Software Solutions LLP** | Kolkata, Newtown, West Bengal | June 2018 – May 2023

- Converted 50+ old static HTML websites into modern, responsive WordPress and WooCommerce sites.
- Managed website hosting, SSL setup, migrations, backups, and day-to-day maintenance.
- Improved website speed and Google search rankings using SEO best practices and Core Web Vitals fixes.

## KEY PROJECTS

### LMS Management System — [cprtec.net](https://cprtec.net)

- Built a complete learning platform on WordPress. Students can enroll in courses, take quizzes, and admins can see reports and control who has access to what.

### Appointment Booking System — [mdva.solutions](https://mdva.solutions)

- Built a booking form that only allows appointments Monday to Friday, 1 PM to 5 PM. Once a slot is approved by the admin, it is blocked so no one else can book at the same time.

### WordPress Multisite Network — [katara.com.au](https://katara.com.au)

- Set up 5 separate websites under one WordPress installation. Each site has its own domain but is managed from a single admin panel.

#### **Shopify eCommerce Store** — [springcrust.com](#)

- Converted a custom HTML design into a working Shopify store. The content can be easily edited by the client without touching any code.

#### **Multilingual Website with Service Booking** — [gilleundpartner.de](#)

- Built a WordPress website in multiple languages with a booking form and calendar that also works in those languages. Bookings are saved as custom posts for easy management.

#### **WordPress & CodeIgniter API Integration**

- Built a secure REST API to connect a WordPress site with a CodeIgniter app so that data could be shared and updated automatically between both systems.
